

// Project Experience

Teberebie

Location: Ghana
Scope: Engineering, Procurement & Construction (EPC)
Completion: 1998

SENET supplied various grasshopper conveyors, mobile, shiftable, and fixed overland conveyors to Teberebie over a four-year period in accordance with their conveyor requirements.

The conveyors were capable of handling 800 t/h of gold ore with a bulk density of 1.4 t/m³.

All the orders related to the project were procured competitively in relation to the USA and Europe.
